SIZE GUIDE

RINGS

All AINHOA rings have slightly different measurements due to the variety of shapes and styles.

A large ring is made to be worn more loosely than a smaller model. For large models AINHOA suggests one size bigger to allow the ring to easily slide on and off your finger.

Please check the individual features provided on the product page.

OPTION 1. MEASURE THE SIZE OF YOUR FINGER.

Finger sizes vary depending on the time of the day and temperature.

Measure your ring size at the end of the day when fingers are at their largest.

1. Wrap a ribbon around the base of your finger.

Consider the width of the band: a particularly thick band will feel tighter than a thin band.

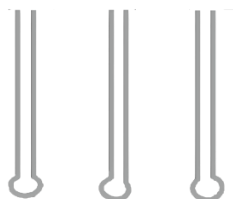

2. Ensure that your ring sizer fits comfortably, snug enough so that it will not fall off, but loose enough to slide over your knuckle.

To make wearing the ring comfortable, we suggest that you also measure your finger size at the joint.

3. Use a pen, mark the point where the ribbon crosses.

4. Measure the length in millimeters using a ruler. This measurement is your finger's circumference.

5. Choose the closest measurement from the table below to identify your ring size.

18.47 mm	58 mm	58	8.5	Q	18
18.78 mm	59 mm	59	8,75	R	19
19.10 mm	60 mm	60	9	S	20

OPTION2. MEASURE THE SIZE OF YOUR RING.

If you wish to offer a ring as a gift, borrow a ring model from your loved one and refer to the table below.

Place the ring on the circles below. Match THE INSIDE OF YOUR RING to the circle nearest in size, making sure all of the black line is visible, and no white is visible. If the ring is between two sizes, select the larger size. The black line must appear in its entirety.

Before printing this guide, please check in the print settings that the «scale paper» option is set to «no». Then print it on a full A4 sheet (21x29.7cm). Measure the sample below with a ruler. It must measure exactly 2 cm.
